Process Calibration Tools from GE

The Druck Process Calibration range from GE gives you reliable, accurate and easy to use calibration tools and instruments at every level.

From simple electrical loop tests to high accuracy calibration tools and modular, multifunction systems, the Druck range means you can keep your people and plant running efficiently, productively and safely.

Advanced Modular Calibration System

The Elite range

High Accuracy Pressure Calibrators

Dry Block and Liquid Bath Calibrators

The Expert range

Single and Multifunction Calibrators

Hand Pumps

Gauges

The Essential range

Elite

Modular multifunction communication and calibration

The Elite range gives you state-of-the-art calibration, communication and data integration on the move. Featuring temperature, electrical, frequency and pressure calibration with HART, Foundation Fieldbus and Profibus communications, the Elite range gives you fast, intelligent workflows on the move. Modular design gives you the capability of a full calibration lab, anywhere in the field. And if you need wider test and calibration tool options, our Essential and Expert ranges have you covered.

Expert

High performance, high accuracy calibration

Our high performance Expert range provides incredible calibration capability built around GE Druck's benchmark reliability, accuracy and ease-of-use. This high accuracy range gives you leading mobile calibration for electrical, temperature and pressure applications. And if you need wider test and calibration solutions, our Essential and Elite ranges have you covered.

Essential

Core function test and calibration

The day-to-day test and calibration tools you can rely on. GE Druck's Essential product range is tough, reliable, accurate and easy to use. So you can get on with your job and trust our Essential range to do theirs. And if you need higher accuracy, or wider functionality, our Expert and Elite ranges have you covered.

*Pneumatic and Hydraulic versions also available

You're in control
