architected with intrinsic cybersecurity and built-in data diode

100x processing power vs. industry standard—variable signal processing

50% smaller than the 3500 Series

2x the channel count compared to industry average

EVOLVED FROM THE TRUSTED 3500 SERIES

86,000+ racks installed worldwide

60,000 oil and gas

20,000 power generation

5,000 other industries

1,000 hydroelectric

100,000 rack monitoring systems

60 years of innovation

6,000,000 sensors deployed globally

UNMATCHED GLOBAL EXPERIENCE
